README.md

React Native Color

Color components for React Native. JavaScript-only, for iOS and Android.

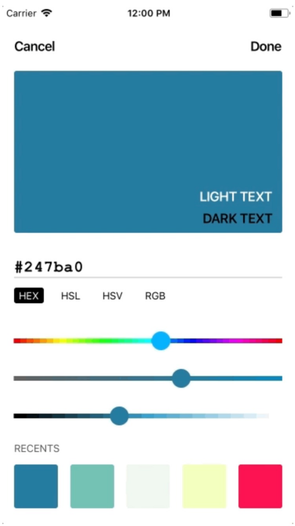
npm v0.0.10 License MIT downloads 984/m

Example

- Run the example app via Expo or check the code.

SlidersColorPicker

Based on a Dribbble concept by Satyajit Sahoo.



Gradients

With a customizable number of steps, shape and direction.

<HueGradient/>

<SaturationGradient/>

<LightnessGradient/>

Sliders

The simplest hue/staturation/value selectors!

<HueSlider/>

<SaturationSlider/>

<LightnessSlider/>

Setup

```
yarn add react-native-color
```

Or, if you use npm, `npm i --save react-native-color`.

Roadmap

- Make the color string editable
- Support different color modes for the return string of the pickers
- Support different color modes for the sliders of the
- Gradient that mixes two colors
- Add documentation for the props
- Support for themes/render customizations
- Export separate components for a build-your-own philosophy
- Type with Flow
